DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, and 8-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Beeman et al.

The Beeman reference discloses a valve comprising a valve housing 10 with a through channel, mechanically coupled, swivelling first and second “valve plates” (any two leaves 13), a “seal connection piece” (a third leaf 13), and a sealing ring 11.

Regarding claim 3, the valve has a “hollow space” which is the area that the leaves 13 move into when the valve opens.

Allowable Subject Matter

Claims 2, 4-7, and 11-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
